With this book in one hand and a brush in the other, you can learn how to create different finishes and effects with paint to change everyday rooms and furnishings into something special, all for the price of a pot of paint. The first section of the book tells you everything you need to know before you start - how to prepare surfaces properly, choose the right paint for the right place, use the best tools and select a colour scheme that will work with the room in question. Then, the 50 different techniques are divided into nine sections: colour washing; distressing and aging; fabric effects; wood effects; stone effects; metallic effects; stencilling and printing; stripes, checks, and spots; and, varnishing and glazing. There are step-by-step photos showing how to achieve the finished look, backed up by inspirational photos showing the effect used on walls and doors, furniture and floors. Learn how to bring old second-hand furniture bang up to date, or how to give modern pieces a softly aged appearance, as well as ways to treat and transform floorboards, doors and plastered walls, all with the aid of a pot of paint and a brush. Whatever the style of your interiors, Quick and Easy Paint Transformations will show you the best way to makeover your home.
