

George Eastman had a new hobby: photography. The year was 1877, and photography was not as easy as you might think. It cost a lot and the equipment was bulky, but George was about to change all that. What he lacked in formal education, George more than made up for in ingenuity: he invented dry plates, film, and the Brownie camera! The rest is history. For anyone who has ever taken a picture or posed for one, *Its a Snap! George Eastmans First Photograph*, with its playful, informative text and lively illustrations, is a splendid introduction to biography, to photography, and to the amazing man who had so much to do with putting picture-taking within reach of us all.
