

Just Chairs

In addition to being a basic item of furniture to be found in any home, the chair reflects social and aesthetic changes throughout history, provides an ideal medium through which to experiment with new materials or technologies, and challenges the creativity of designers devising new ways to defy gravity's immutable laws to provide support for the human body. Through vivid photography and commentary, *Just Chairs* describes all facets of chairs, classic designs that have withstood the test of time to revolutionary and modern creations from young designers transforming the chair into an object of art. After a brief introductory history of the chair, this visual history features chairs designed from the world's most famous designers including Gerrit Thomas Rietveld, Eileen Gray, Mies van der Rohe, Le Corbusier, Marcel Breuer, Alvar Aalto, Charles and Ray Eames, Eero Saarinen, Arne Jacobsen, Harry Bertoia, Verner Panton, Eero Aarnio, Ettore Sottsass, Vico Magistretti, Oscar Tusquets, and others. A complete and inspirational look at the too-often-overlooked machine that is the chair, the book is a charming and inspirational resource not only for interior designers but also for all those wishing to find the perfect chair for their lifestyle.
