

In today's world, cats have become obese; they have so many health issues, we've veered off course and forgotten that cats are carnivores. So we provide dehydrated, processed pebbles that do not even resemble anything edible. Many cats have become obese zombies, eating out of habit rather than hunger. We are all animals. Some of us walk on four legs, and some walk on two legs. For mind and body to achieve their fullest potential, wholesome nutrition is required. People are confused about food in general but especially about pet food. This book simplifies what pet food is and what it should be.
