

The latest information on wound care in a comprehensive yet portable resource. Written by the chair of the Education Committee of the Wound, Ostomy and Continence Nursing Association, this is the first text on wound care to be both comprehensive in scope yet small enough to fit into a lab coat pocket. All of the latest information on wound care is now available at your fingertips. Part of the new Nurse to Nurse series, this title features coverage of the principles behind acute as well as chronic wounds. The authors include assessment and evaluation principles, how to stage or classify any wound, and practical hints on wound measurement and wound care. You will also find documentation and reimbursement tips for many healthcare settings. Features: PDA download of the entire text Wound care suggestions along with advantages and disadvantages so you can make fully informed decisions about wound care In abbreviated format, all the considerations that must be made when treating wounds of differing pathophysiology and in multiple healthcare settings The most current scientific evidence on wound care Coated flex-binding repels stains The new Nurse to Nurse series is specifically designed to simulate the teaching experience nurses learn best from: trusted mentors carefully explaining what they must do in specific clinical situations. Written in a consistent, single-author voice, this series brings the wisdom and experience of some of the foremost experts to non-specialist nurses in clinical care.

Mini Pies: Sweet and Savory Recipes for the Electric Pie Maker, Drug Repurposing and Repositioning: Workshop Summary, You, Your Parent and the Nursing Home, Remarks on a pamphlet lately published by the Rev. Mr. Maskelyne, under the authority of the Board of Longitude.
